

Stiftung zur Krebsbekämpfung
Fondation pour la lutte contre le cancer
Fondazione per la lotta contro il cancro

Information for Applicants

Scope

The non-profit Foundation established in 1988 aims at promoting and supporting projects, works or organizations in Switzerland related to the combat, prevention, research, treatment or alleviation of cancer diseases in general and leukæmia in particular.

Attainment of Scope

The Foundation grants specific contributions to corporations or individuals in the support area as a financial assistance to purchases, investments, operation costs etc. Salary costs and expenditure on seminars, conferences etc. are generally not funded. The actual use of the contributions must be verifiable.

Budget

The Foundation has around CHF 280'000 available for support contributions in the 2024 calendar year.

Contribution Requests

The contribution request is to be submitted to the Office, together with supporting documents. The Board of Trustees shall take a final decision about a contribution request after consulting with the medical and scientific Advisory Board. There is no deadline for submissions, as the applications are continuously treated after receipt.

March 2024

We are a member of proFonds
